Fri, Sept 4 · Equipment goes on order today. Install is one day on site — we set everything up, move your devices over, and speed-test every room with you. The remaining \$1,024 is due on completion.

Your warranty

WHAT	HOW LONG	WHAT IT COVERS
Workmanship	10 years	Everything we physically did — mounting and the configuration at handover. Transfers if you sell the house.
Equipment	1 year	Dream Router, access points and the desktop card. If a unit fails in the first year we replace it and install the replacement at no charge.

If you want to add to it later

ADD-ON	PRICE
Wired jack — a TV, the desk, a camera. The surest fix for anything that has to be rock solid	\$250 each
Additional access point — a shop, garage or patio; includes its wired connection	\$525
UniFi G4 Doorbell Pro — two-way talk and package detection, records to your own gateway, no monthly fee	\$795
UniFi 5G Max backup internet — cellular takes over automatically if your provider drops. Data plan extra	\$775
Battery backup — rides through a short power blip so the network stays up	\$125

Prices held one year. Placement is finalized on install day around available outlets. A wireless system covers the whole house but won't put the full gigabit at every spot the way cable does — a jack can be added later. Deposit is non-refundable now that equipment is ordered. Questions: Nathan, 636-224-8192.
