Low-voltage technology contractor

Division 27 communications · Division 28 electronic safety and security · Division 10 specialties

WOMAN-OWNED · MINORITY-OWNED

Local small business · O'Fallon, Missouri

St. Louis and Kansas City metros

Licensed · insured · bondable

E-Verify enrolled · certified payroll

One vendor for every technology trade on your job.

Cabling, fiber, Wi-Fi, cameras, access control and networks on one bid, then managed after we install it.

WHY GCC

Same-day bid turnaround

Send the drawings; get a priced proposal back the same day.

One vendor, full bid

Divisions 27, 28 and 10 on one bid, from one crew.

No after-hours premium

Nights and weekends at standard rates, so occupied buildings stay open.

Woman- and minority-owned

An owner-led small business that brings diversity to your sub list.

Local to your job

Based in O'Fallon, Missouri, with crews in St. Louis and Kansas City.

WHAT WE SELF-PERFORM

- **Structured cabling**
  Cat6 and Cat6A pulled, terminated, labeled and traced
- **Fiber**
  Backbone pulls, fusion terminations and OTDR testing
- **Telecom rooms**
  MDF and IDF racks, patching, bonding and grounding
- **Test and certify**
  Fluke DSX-8000 results on every drop, LinkWare reports
- **Wireless**
  Access point cabling, mounting and Wi-Fi design
- **Cameras**
  IP camera cabling, mounting, aiming and recorders
- **Access control**
  Door readers, strikes and controllers
- **Networks and displays**
  Network setup and management, cable to TVs and displays

We start where the electrician stops: you keep conduit, boxes and power, and we carry everything from the pull string on.

HOW WE WORK

- Sub to GCs and electricians, or direct to owners
- After install: 24/7 NOC, managed network and Wi-Fi
- Federal and prevailing-wage work, certified payroll
- Schools, healthcare, retail, industrial and multifamily

QUALITY YOU CAN DOCUMENT

- Design to BICSI and TIA-568, 606 and 607
- Siemon Certified Installer, 20-year system warranty
- Lifetime workmanship warranty on our cabling
- Test results, labels and as-builts at every closeout
