

Background Check Compliance Letter

To Whom It May Concern:

We confirm that all personnel assigned to our projects undergo standard screenings before receiving site access. Our standard screening includes:

- National criminal background check (7-year history)
- National sex offender registry check
- 10-panel drug screen
- Government-issued photo ID verification
- OSHA 10-Hour Construction Safety certification
- First Aid / CPR certification

For projects at K-12 schools, healthcare facilities, or federal sites, we apply enhanced screenings:

- State child abuse / neglect registry check
- FBI fingerprint-based background check
- Facility-specific badging and credentialing
- OSHA 30-Hour Construction Safety certification (field supervisors)

Program controls:

- We conduct all screenings through a licensed third-party provider.
- We keep results confidential under FCRA guidelines.
- We provide clearance documentation to the General Contractor upon request.
- We do not assign personnel who do not pass screening to the project.
- We hold all GCC sub-labor to these same screening requirements.
