

EMR Status Letter

To Whom It May Concern:

We formed Green Communications Contracting LLC on February 25, 2026, and have been operating as a Division 27/28 low-voltage contractor in the Kansas City and St. Louis metro areas since that date.

Because we were formed less than three years ago, we do not yet have an Experience Modification Rate (EMR) assigned by NCCI. An EMR is typically assigned after a company has three full years of workers' compensation loss history.

Safety Record Since Formation

Item	Status
Recordable Incidents	Zero
Lost-Time Incidents	Zero
OSHA Citations	Zero
Workers' Comp Claims	Zero
Drug / Alcohol Violations	Zero

Safety Program

- Written Safety Program on file (provided on request).
- OSHA 10-Hour certification for all field personnel.
- OSHA 30-Hour certification for all field supervisors.
- First Aid / CPR certification for all field personnel.
- 10-panel drug screening (pre-employment and random).

- Daily toolbox talks and site-specific hazard assessments.
- Stop-work authority for all crew members.

Insurance

We carry Workers' Compensation insurance at statutory limits with \$1,000,000 per-accident employer's liability.

We anticipate receiving our first EMR rating in 2029. Until then, we provide this letter along with our insurance certificates and safety program documentation to demonstrate our commitment to workplace safety.

Sincerely,

Kaitlyn Morris
