

Services List

Green Communications Contracting LLC · Division 27 / 28 Low-Voltage Contractor

1. Division 27 — Low-Voltage Communications

- Structured cabling — Cat6A plenum (GCC baseline, horizontal and backbone)
- Legacy / retrofit cabling — Cat5e, Cat6 (where spec mandates; Cat6A substitute never offered on new work)
- Fiber optic cabling — OM3, OM4 multimode; OS2 singlemode
- Fiber splicing — fusion and mechanical
- Telecom room (TR) buildout — racks, cabinets, ladder rack, cable management, grounding, backboard
- Wireless access point (WAP) cabling and mounting
- Cable pathway — cable tray, J-hooks, innerduct, conduit support
- 100% Fluke certification testing — copper and fiber (DSX-8000, CertiFiber Pro)
- ANSI/TIA-606-C labeling at both ends of every cable
- As-built documentation — cable schedules, rack elevations, test results

2. Division 28 — Electronic Safety & Security

- Access control system (ACS) cabling and device mounting — readers, strikes, maglocks, REX, door contacts
- IP surveillance camera cabling and mounting — fixed dome, PTZ, bullet, panoramic
- Intrusion detection cabling — door/window contacts, motion sensors, glass break detectors
- Intercom and paging system cabling
- Audio/visual cabling — speakers, ceiling mics, displays, projectors

3. Additional Services

- AV rough-in and trim-out (conduit, cabling, device mounting)
- Network equipment installation (when spec assigns to EC with model numbers)
- Outside plant (OSP) cabling — aerial and underground fiber, direct burial
- Design-assist and value-engineering support
- Multi-site rollout coordination
- UniFi network stack deployment (new construction alternate)
- Post-installation managed services (monitoring, remote troubleshooting, firmware management)

4. Standard Exclusions

Items outside GCC scope by default:

- Fire alarm systems and devices
- Electrical rough-in, conduit, backboxes, power
- BAS / HVAC controls / thermostats
- ISP services or circuits
- Programming and commissioning of active equipment (by others)
- Demolition, surface restoration, core drilling
- Firestopping (we sleeve and label; firestopping by others)
- Trenching, underground conduit, concrete work
- ERCES / BDA / DAS (specialized RF radio scope)
- Lighting controls (Div 26 09 00 — WaveLinx / nLight / DLM / Lutron)
