RE: Division 27/28 Low-Voltage — {{SITE_NAME}}, {{CITY_STATE}} — Base Bid Proposal

Dear {{GC_CONTACT_FIRST_NAME}},

Please find enclosed the Proposal Packet for {{SITE_NAME}}, our formal Division 27/28 Low-Voltage subcontract response to your request. GCC has reviewed the full bid documents you issued — drawings, specifications, {{ADDENDA_COUNT}} addenda, and the invitation — and has priced the work as drawn.

Our Base Bid is \${{BASE_BID}}, firm-fixed and valid for 30 days from the date above. Pricing is structured as three buckets — Materials, Labor, and Services — with the detailed Schedule of Values embedded as Section 2 of the enclosed Bid Proposal.

Three things set GCC apart on this project:

- Lifetime workmanship warranty on every cable we install — transfers with the property.
- 100% on-time delivery record — we hit every substantial completion date we sign.
- Fluke DSX-8000 certification on every drop, with LinkWare PDF reports delivered at closeout.

Included as standard on every GCC bid: Cat6A plenum on all data drops at no upcharge, even when the base spec calls for Cat6. Cat6 substitute for Cat6A is never offered.

Addenda acknowledged and priced: {{ADDENDA_LIST}}. Any addenda received after bid lock are not priced in this proposal.

GCC can mobilize as early as {{MOBILIZE_DATE}} and is available this week to walk through the Schedule of Values, alternate scenarios, or any clarification you or the owner need. Call or email direct — contact block below.

Sincerely,

Green Communications
